CORE SKILLS

Programming Languages: C, C++, JavaScript, PHP, Python, Java, SQL
Frameworks & Libraries: HTML5, CSS3, Bootstrap, Node.js, React, Flutter, Spring Boot, MERN Stack
Databases: MySQL, MongoDB, AWS
Tools & Platforms: Git, GitHub, Windows, Linux, Selenium, Eclipse, Mantis, Jenkins
AI/ML: Generative AI, Deep Learning, TensorFlow, Pandas, NumPy, NLP, Data Analysis, Machine Learning, Prompt Engineering
Soft Skills: Critical Thinking, Strategic Decision-Making, Time Management, Adaptability

PROJECTS

Best Doctor AI Chatbot

Feb 2026 - Mar 2026

Technologies: HTML, CSS, JavaScript, React, Node.js, PHP, MySQL, MongoDB, AI/ML Models

- Built a full-stack AI-powered healthcare chatbot performing symptom analysis and delivering personalized health advice through an NLP-based conversational interface.
- Integrated AI/ML models to enable intelligent, context-aware responses with a secure and interactive front-end experience.
- Designed a scalable backend using PHP and MySQL to handle user sessions, query logs, and health data storage.
- Architected the system for easy integration with third-party healthcare platforms and external APIs.

FitTrack - Fitness Tracking Web Application

Feb 2026 - Mar 2026

Technologies: HTML, CSS, JavaScript, PHP, MySQL, Python, AI/ML Models

- Developed a full-stack fitness tracking web application enabling users to register, log in, record workouts, track daily steps, and monitor body statistics such as weight and BMI.
- Built a PHP and MySQL backend to handle user authentication, data persistence, and server-side processing, ensuring secure and reliable data management.
- Integrated a rule-based AI suggestion engine in JavaScript that analyzes user activity data and delivers personalized workout recommendations and motivational tips without relying on external APIs.
- Designed a fully responsive layout ensuring seamless compatibility across desktop, tablet, and mobile devices, with clean UI and smooth navigation.

Tic Tac Toe Game

Jun 2025 - Jul 2025

Technologies: HTML, CSS, JavaScript, Bootstrap, C, C++

- Developed a browser-based Tic Tac Toe game with a fully dynamic, responsive game board rendered as a square grid.
- Implemented core game logic in C and C++ for turn-based gameplay, player symbol tracking (X/O), and win/draw detection algorithms.
- Added input validation for row and column selections to prevent out-of-range entries and ensure error-free gameplay across all sessions.

CERTIFICATIONS

Java Basics for Beginners – Ebox	Jan 2023
Object Oriented Programming using C – iamneo colab	Aug 2024
Generative AI Workshop Certification – AWS	Sep 2024
Data Analysis with Python – Cognitive Class	Feb 2025
Responsive Web Design – freeCodeCamp	Jul 2025
Deep Artificial Intelligence – Deeplearning.AI	Aug 2025
Agents and Workflows – OpenAI	Jul 2026
Claude 101 – Anthropic	Jul 2026

EDUCATION

Master of Computer Applications (MCA)	Aug 2024 - May 2026
Lovely Professional University, Phagwara, Punjab	
Bachelor of Computer Applications (BCA)	Aug 2021 - May 2024
Lovely Professional University, Phagwara, Punjab	
Intermediate	Jun 2016 - Mar 2018
St. Joseph's High School, Patna, Bihar
